*"Acts of the ASRC" includes motions passed by the Membership or Board of Directors that have continuing force or relevance.

**The SAROP should be available as a small pocket-sized manual, providing the operational information and policies most likely to be of use to ASRC members in the field. A copy could be inserted in a pocket in the back cover of each copy of the full *Operations Manual*.

***This and the following publications are planned to be joint publications of the ASRC and the Center for Emergency Medicine of Western Pennsylvania. Brady Company (publishers of EMT and other emergency medicine textbooks) is interested in publishing these WEMT books, so we may wish to consider going directly to commercial publication. Brady may be interested in publishing the ASRC Training Manual, as well.
